

WELCOME ABOARD

And thank you for downloading our plane, The Cessna Citation II. We would like to express our gratitude in your confidence for downloading it but also would like to assure you hours and hours of enjoyment and fun.

Veneaviones Team Group has put a lot of efforts, feelings, time, sweat and also also tears in order to come up with this airplane for blessed Flight Simulator community around the world, trying to –humbly – contribute with all

authors who made theirs efforts, feelings, time, sweat and why not, tears. Knowing that this is our first project as a team, we were trying to do our best to bring up a quality product in the freeware figure so all of you will be able to share our joy and pride.

The Cessna Citation II has been designed using specs from original factory engineering drawings, manuals and technical advice and support of the Veneaviones Team Group,

The Cessna Citation II is the first in a series of models due to be released over the next year. Each aircraft will offer different visual models, performance, handling, flight dynamics, correct panel radios and gauges, and paint schemes.

Let us introduce the so honorable people that form this great team named Veneaviones. A multinational, melting pod people with more than one thing in common, but surely one real thing in common is this hobby, The Flight Simulator. So, without losing more time... ta, ta, ta, taaa... here they are:
